Subject: Statement of Purpose for studying in Canada

.

I am writing to apply for a student visa to pursue my postgraduate studies in computer science from an unnamed University in Canada. I have been accepted for admission by the University and will soon be submitting my documents for processing.

I am eager to begin my studies in Canada as I am looking forward to harnessing the knowledge I will gain from the professors at the university as well as the overall experience of living and studying in a new, diverse country. I have been a good academic performer throughout my academic career and have consistently displayed mastery of my skills in all my examinations. I can assure you that I will be a hardworking and dedicated student once my studies begin.

Moreover, I am confident that I can contribute to the academic authority of the university in Canada with my knowledge and experience. I am also excited about the opportunity to engage in extracurricular activities and to expand my social network by meeting new people and becoming involved in student societies.

I, therefore, kindly request you to grant me a student visa so I can begin my course of study in this esteemed university and make the best of this unique and life-shaping experience.

Thanks & Regards
